Hon. Robert C. Winthrop early in life agreeably surprised his friends and ac-quaintances. His youthful training was such as would have fitted him for a career of luxury and social successes, but this was not to his liking and he devoted himself to affairs of state. He became a member of the Whig party when it was still in its infancy. His ability gained almost immediate recognition, and at the age of twenty-four he was elected to the Massachusetts legislature. He served three terms on the floor of the house and three terms as speaker. Soon after the election of General William Henry Harrison to the presidency Hon. Abbott Lawrence resigned his seat in congress from the Boston district and Mr. Winthrop became his successor. When he took his seat in 1840 he was but thirty-one years of age. He was afterward elected speaker, and it is said that he made as good a presiding officer (Henry Clay not excepted) as the na-tional house of representatives has ever
